

# Mohamed Ibrahim H

## Tech & Business Enthusiast

Snowman of 2004

Player from 2018

I'm just an 11th STD dropout, but been immersed in this field since 8th STD.

I have a passion for Business, Marketing, Networking, Design, Development, Collaboration, Expansion, Planning, Execution, Adaptation, and of course, money. Always on the journey of learning, I'm completely absorbed by computers. My aim is to become an all-rounder, capable of both playing in a team and leading it.

Despite being in the game for five years, I haven't reached an intermediate level yet, and I don't need at all. I always love being a beginner because in business, things are always evolving and adapting, and so must we.

### JOB EXPERIENCE

2019-2020

At Sharmila Digital Media, I started as an editor and gradually transitioned into a photographer, taking on responsibilities for videography and advertisement projects.

Through my tenure, I honed my skills in Photoshop, Edius (video editing software), photo editing techniques, album designing, ad video editing, and audio mixing. I also gained experience in lighting setup, color correction, and various basic photography services.

2022-2023

During my time at Elegant Network Solutions, powered by BSNL Broadband, I learned a lot about fiber technology and computer networking. Working collaboratively within a team, I honed my skills in customer handling, negotiation, data management, tele-calling, and marketing.

Leveraging my design expertise, I crafted roadmaps to streamline operations and enhance organization. With focus on targets and deadlines, I navigated projects with precision, ensuring client satisfaction.

2023

At INIYA E-COM INDIA PRIVATE LIMITED, I'm a designer who does a bit of everything creative.

I make eye-catching packaging designs, ads, and handle our social media. I also work on print materials and dabble in UI/UX design. With Good Setup and a talented team, I use my skills to boost our brand.

### STUDIES

SSLC 10<sup>th</sup>

Class 11<sup>th</sup>

....404

## Collaboration and Partnerships

Even though I'm just 19 and young to the business scene, I've got a ton of skills to bring to the table when it comes to running, developing, and expanding businesses. I've got my own team and a huge network of freelancers and part-timers, and I know how to manage them to get the job done.

I'm up for collaborating on all sorts of projects and can work with your budget by planning together. I'm super flexible, easygoing, and professional. Thanks for taking the time to get to know me better..,  
**Looking forward to the chance to work together! Thanks for your time.**
